Dear Amit Katyal

Please structure the questions properly in your survey and try to expand the reach of your study. Also, document the findings of your survey using different mathematical models.

Regards,
Ashutosh Jha

Dear Ashutosh Jha

I have noted down the changes requested by you and I am working on it as of now. It is expected to be fulfilled within 2 days. Additionally, I am adding a few bonus questions. I expect that they will help us understand the survey results in a better manner.

Regarding the reach of the survey, I have already circulated the survey among some other groups of our target audience and the findings are expected to be collected and compiled by this week. The mathematical models and the charts required for the study will take additional 2 days.

Please expect the work to be completed within our schedule.

Thanks & Regards
Amit
