Dear Tushar Sethi

We have developed four applications for College Connect but the findings of the survey and the feasibility study indicates and concludes that all the applications should be combined. Therefore, I request you to please compile all these applications and their data and manage the flow of the app accordingly. So, in short, there will only be one apk file at the end of your work.

Regards,  
Ashutosh Jha

Dear Ashutosh Jha

I have already started working on combining all the apps to a single one. I will be able to complete the task and send you the final apk within a week.

Regards  
Tushar Sethi
